LITERATURE ANALYSIS AND METHODOLOGY

In Islam woman's instead illuminating literature many century-old to history has is , the Quran and hadiths this of the subject main sources The Quran is In Karim women's social status and rights about many verses In particular , Surah An - Nisa women and men between PCB emphasizes and their right and duties clear It also defines the Prophet Muhammad (peace be upon him) . life and from the words organization found Hadiths are also relevant to the topic. important source is considered . “ The most yours truly own to their wives the most good in circulation ” You must have been there. ” (Imam Termizi) like hadiths men's to women relatively responsibility glorifies . Uzbek scientists sources

between and Abdurauf Fitrat works , especially " Women " " education " work national mentality and religious of values harmony shows .

Analyses this shows that Islam women society equal entitled member as sees and to them wide opportunities presented These sources women appreciation and respect to do principles every one-sided illuminating gives .

This the article in preparation scientific - analytical , historical and legal approach methods is used . The research main purpose In Islam women's their place , their right and duties lighting and modern interpretations Quranic verses and Our Prophet (peace be upon him) hadiths analysis to do through In Islam to women was approach basics studied . Islam women rights supportive , their rights fair protection to do principles to understand help gives .

DISCUSSION AND CONCLUSION

Islam religion woman and male between equality and justice principles previously push , every two gender representatives in society instead by designating gave . Women family in life , economically in activity , science and spirituality in the fields important place Quran verses and Our Prophet (peace be upon him) in the hadiths women respect to do , to them kind to be and their rights supply about many evidence there is .

Analyses this shows that Islam women discriminatory not , maybe their rights protection doer religion . But some historical and social conditions as a result this principles wrong interpretation made , some in societies to women relatively injustices happened In fact , during the time of our Prophet (peace be upon him) , women's education to take , to take to the property ownership to do , work to conduct and in society active participation to reach was rights clear designated was .

Today Islamic even today values correct understanding and implementation to grow important importance profession Women 's knowledge to take , own from the rights use and society to the development own contribution add religious is also supported in many ways . Especially , our President initiative with done increasing reforms as a result women's education to receive , in society activity , leadership to positions election and social in life active participation for wide opportunities was created . So yes , Islam instruction deep learn it , modern to life suitable accordingly understanding society development for important importance profession will reach .

In the article take visited analyses this shows that Islam the woman not only of the family , maybe whole society support as respects . To a woman was attention only religious responsibility not , but , national our values are also inseparable is part of the woman . respect and rights only in the laws not , but , of people in the heart and society in mind solid place to receive These principles to life correct implementation if done , in society not only women , maybe whole humanity to the well-being service does .

CONCLUSION

Islam religion the woman family heart of society support as glorifies . Quran and In the hadiths woman's honor , rights and responsibilities clear designated are , they are not only.

family in life , maybe social , economic and cultural also active in the fields to be opportunity gives . Islam women not only protection does , maybe their spiritual and scientific development supports .

Today on the day some in societies women's place limited or wrong interpretation made situations meeting possible . However , Islam original to the essence Let's go back , women. in society equal entitled , knowledge to take and development right has individuals that it is We understand that our Prophet Muhammad (peace be upon him) their lives to this bright example : He girl the child upbringing to do to heaven take going Those who consider it a great reward , to their wives affection and respect showing them science to take those who encouraged⁹.

Therefore , modern Muslim societies women for education , vocational development and personal freedom opportunities create through Islam original values restorations necessary . Because, a woman raised generation – nation the future The woman 's knowledge , virtue and manners society to perfection in maturity important is a factor . So , we are in Islam teachings right understand , women dignity worthy our assessment and their in society activity our support necessary .
